

Prashant Mishra

AI Product Builder · Head of Operations · Agentic Workflow Designer · Vibe Coder

Mumbai, India | +91-9820882232 | 735prashant@gmail.com | linkedin.com/in/prashant-m | github.com/PrashantforAI

PROFESSIONAL SUMMARY

Mumbai-based AI Generalist and Operations Leader with nearly a decade of experience across tech publishing, EdTech, cybersecurity, and short-term rentals. I architect AI-native products, engineer agentic workflows, and automate operations — achieving a 40% reduction in manual workload at Pine Stays. I build with AI daily: shipping live products, designing LLM-native systems, and helping D2C brands leverage generative media. Seeking a full-time AI Product or Operations Leadership role at an AI-first company. Available within 1 week.

CORE COMPETENCIES

AI Agents & Agentic Workflows · Prompt Engineering · LLM Integration · Vibe Coding · Rapid Prototyping · AI-Native Products
Google AI Studio · Vertex AI · Google Antigravity · Zapier · Make · Weavy.ai · TypeScript · HTML · GitHub Copilot
Business Operations · Revenue Optimisation · Demand Forecasting · Lead Scoring · Multi-Channel Sales
Looker Studio · Google Workspace · Zoho CRM · Notion · Vercel · GitHub · DaVinci Resolve

PROFESSIONAL EXPERIENCE

Pine Stays Nov 2022 – Jan 2026 | Mumbai

Head of Business Operations

- Architected an AI-first operations framework; deployed custom automation tools that cut manual data entry by 40% and accelerated guest response times.
- Engineered AI-driven lead scoring and channel attribution across Airbnb, B2B, and offline channels — directly driving revenue growth and occupancy optimisation.
- Built Google-based automated demand forecasting and dynamic pricing systems, improving revenue predictability across all properties.
- Leveraged AI behavioural analytics to personalise guest journeys and automate reporting dashboards, reducing manual reporting effort significantly.

KnowledgeHut upGrad Nov 2021 – Oct 2022 | Mumbai

Content Acquisition & Strategy

- Directed market research across 10+ emerging EdTech technology categories, identifying high-value content gaps and opportunities.
- Contracted and collaborated with 15+ industry authors to develop course outlines, curriculum structures, and technical learning outcomes.

EC-Council Apr 2020 – May 2021 | Mumbai

Senior Executive Acquisition Specialist

- Partnered with cybersecurity thought leaders and tech evangelists to design and deliver global certification training programmes.
- Negotiated complex multi-variable author contracts (advances, royalties, schedules) across 10+ concurrent projects, minimising financial risk.

Packt Publishing Aug 2016 – Mar 2020 | Mumbai

Acquisition Editor → Project Consultant → Technical Editor

- Published 18 technical titles; appointed Subject Matter Expert (SME) for the Technical Editor committee, setting in-house quality standards.
- Designed and delivered 29 live training sessions as Project Consultant — average CSAT 8.2/10; trained and mentored 5 new project consultants.
- Managed key account partnerships; supported India Sales team in identifying new revenue streams from partner and institutional channels.

Appco Group India Jul 2015 – May 2016 | Mumbai

Corporate Trainer

- Delivered field sales and face-to-face marketing training programmes focused on NGO sector campaigns.

AI PRODUCTS & PROJECTS

AIBNB / StaySphere [Live]

Modular AI agent system for Indian short-term rentals — LLM-native 24/7 guest support and dynamic pricing, built in TypeScript.

AiTribe D2C Photography [Live]

AI photography platform — 15-19 professional shots per SKU from ₹12,000, 48-hr delivery, no models or shoots needed.

FrameFlow [Service Available]

AI storyboarding tool for brands and creators, offered as a done-for-you service.

AiTribe Agency [Building]

AI agency offering AI-native development, automation pipelines, and generative media — aitribe.co.in

EDUCATION

B.E. Information Technology — Thakur College of Engineering & Technology, Mumbai 2011 – 2015
